

GEWENA

Manufacture

MEDITERRANEAN

Marsalla

Small pieces of rock were formed into a wall with mortar. Stones from 2cm to 35cm protrude about 1 to 2cm from the mortar, which creates a harmonious effect.

HISTORY

The feeling of warm sunlight on your skin and narrow alleys surrounded by historical buildings - the Mediterranean area is truly magnificent. With this collection you can bring a little bit of this vacation feeling into your home.

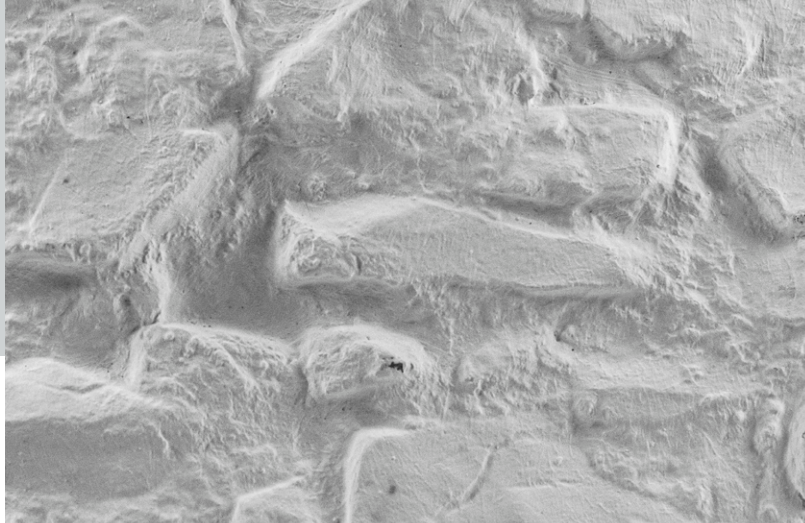

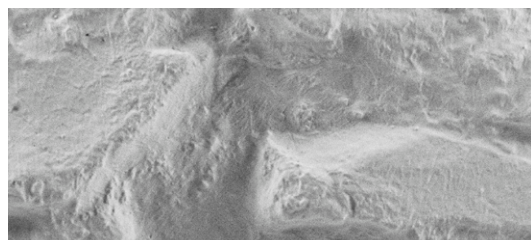

RECOMMENDED COLOR COMBINATIONS

We use standardized color systems such as NCS. Color combinations are customizable. You can choose up to three colors (stone color, stone patina color and joint).

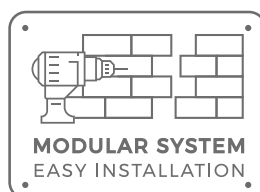

DETAILS

The stones were split apart and placed in mortar. The typical color for these walls are ocher, dover or gray.

| | |
|--------------------------|---|
| LAYING DIRECTION: | laid horizontally |
| DIMENSIONS: | 236,5 cm x 119 cm |
| MATERIAL: | 100% mineral (cement types, glass) |
